	Kambala Solutions Private Limited

Invalid user id____

When a user enters an invalid user ID, the below error message is shown and restricts login.

Invalid Password

When a user enters an invalid password, the below error message is shown and restricts login

Get OTP

The user can also login through OTP instead of entering PAN.

Invalid Two Factor authentication

When a user enters an invalid OTP or TOTP, the application gives an error message and restricts login.

The programme will enable the user to access further functions after they have updated their proper credentials.

Stoploss should be greater	r than 0.		
Charges : ₹ 0.10 ()	6. (2)		Cancel

Bracket Order

Bracket Order is A type of order where you can enter a new position along with an exit and a stop loss order. Bracket orders are designed to help limit your loss and lock in a profit by "bracketing" an order with two opposite-side orders. A BUY order is bracketed by a high-side sell limit order and a low-side sell stop order. A SELL order is bracketed by a high-side buy stop order and a low side buy
